

Position: Shop Associate – Entry Level

Farris Automated Systems LLC is a supplier of custom automated assembly equipment for the automotive, heavy industrial, and general manufacturing industries. We offer complete turnkey systems from concept to installation. Farris Automated Systems employs engineers, machinists and assemblers in Mukwonago, WI. See our website at www.farrisautomation.com for more details.

This is an excellent opportunity to be part of a company and learn about machining, welding, automated assembly, electrical panel building and engineering.

Job Description:

The job will consist of general maintenance throughout the shop, including cleaning machines, changing coolant, and general grounds maintenance. Other duties are shipping/receiving and stocking of parts.

In addition, the applicant will assist with machine builds and installation when needed. If dedication and work initiative is shown, promotions to other departments are available.

Requirements:

- Mechanical aptitude
- Use hand and power tools, read a tape measure
- Basic math for crate building
- Ability to lift heavy objects (50 lbs)
- Ability to work independently. Self starter.
- Willingness to learn new skills.
- Valid WI Driver's license with good driving record

Ideal candidate will have 3 or more of these skills:

- Knowledge of hand tools that are used to build a panel
- Mechanical skills to punch holes, drill and tap, lift upto 50 lbs
- Ability to travel to customer sites for 1-4 days to install machines
- Shipping and Receiving

Interview Questions:

1. Do you have a valid drivers license? (Yes)
2. How many jobs have you had in the past 5 years? (Hopefully less than 3, unless a HS kid)
3. What do you do with a socket wrench? (Tighten/loosen a bolt)
4. What tool do you use to cut a 2x4? (Skill saw or hand saw)
5. Two feet is equal to how many inches? (24)
